Pair of Chiseled Gilded Bronze Sconces with Two Light Arms

Régence Period

Dimensions : Height: 16.5 inches; Length: 9.8 inches

This is a superb pair of rocaille sconces in chiseled and gilded bronze. The backplate is made up of intertwined acanthus leaves and is finished with an overflow of flowers. The two light arms have a lot of movement and are adorned with flowers and foliage. The "bobèches" are made out of foliage and can be found under the "binets". The "binets" are made out of leaves that form a flower bud.
